Oct - Dec: Development of e-database of research centres

1st week Dec: internal UAT, mainly technical check

3rd week Dec: pilot phase (real-life environment)

Goal: Release of version 1.0 before Christmas

Q 1 2010: Release of version 2.0 also covering data sources

Q 2-3 2010: Development of database of PE & PhV studies

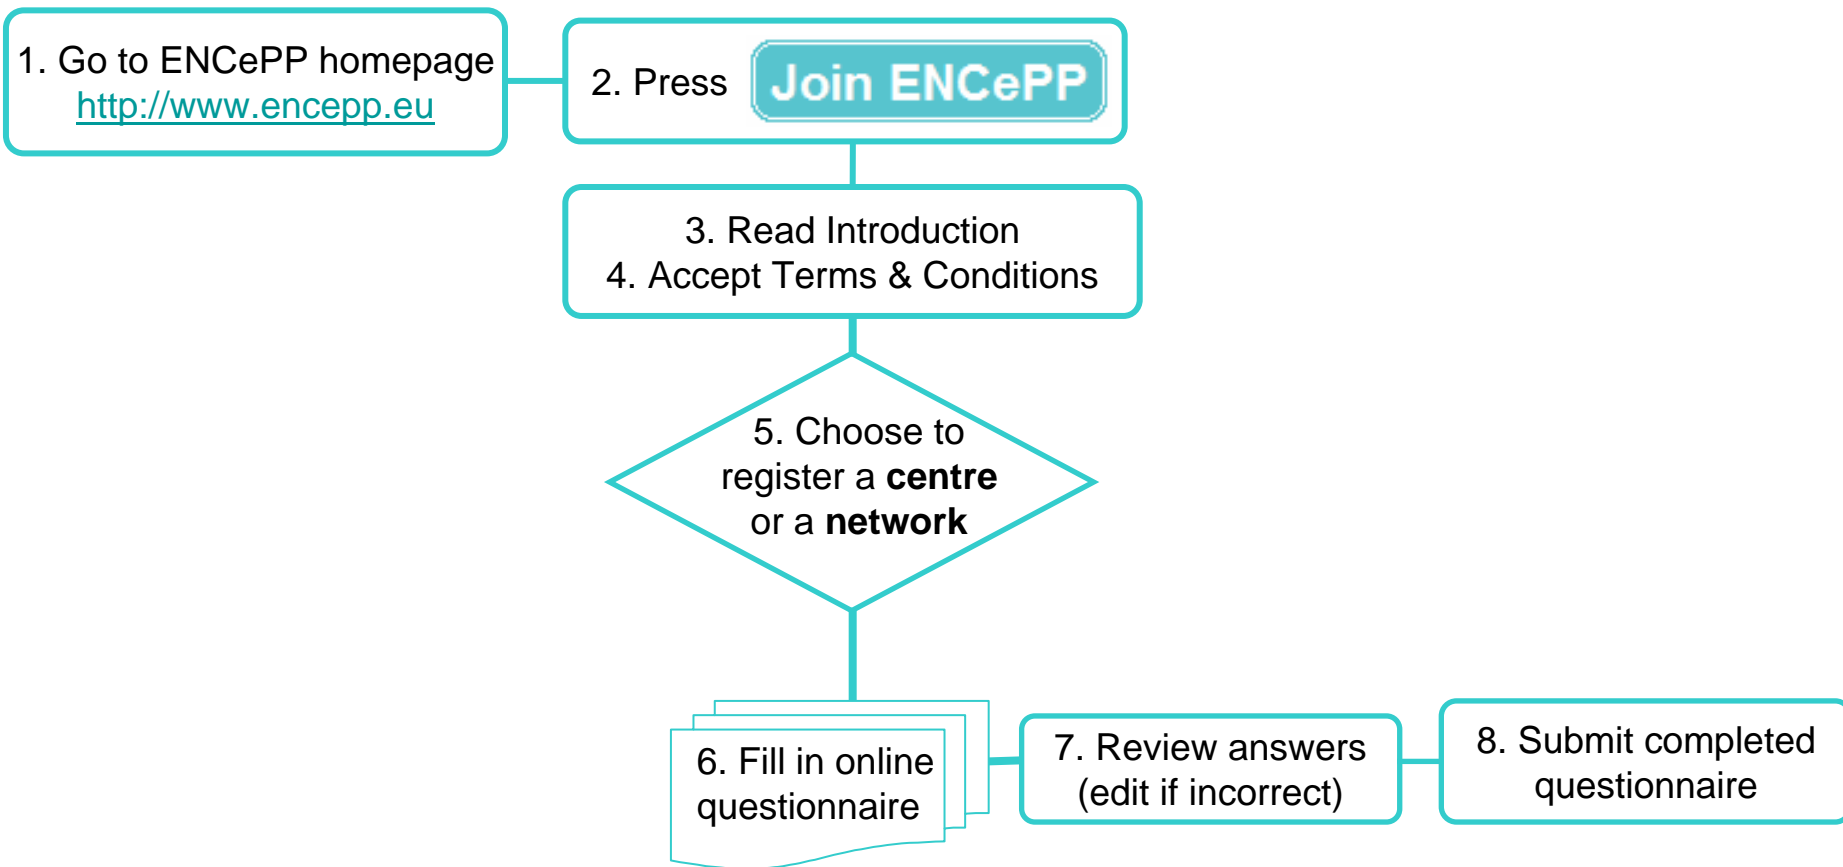

**ENCePP
e-Inventories**

Database of research centres

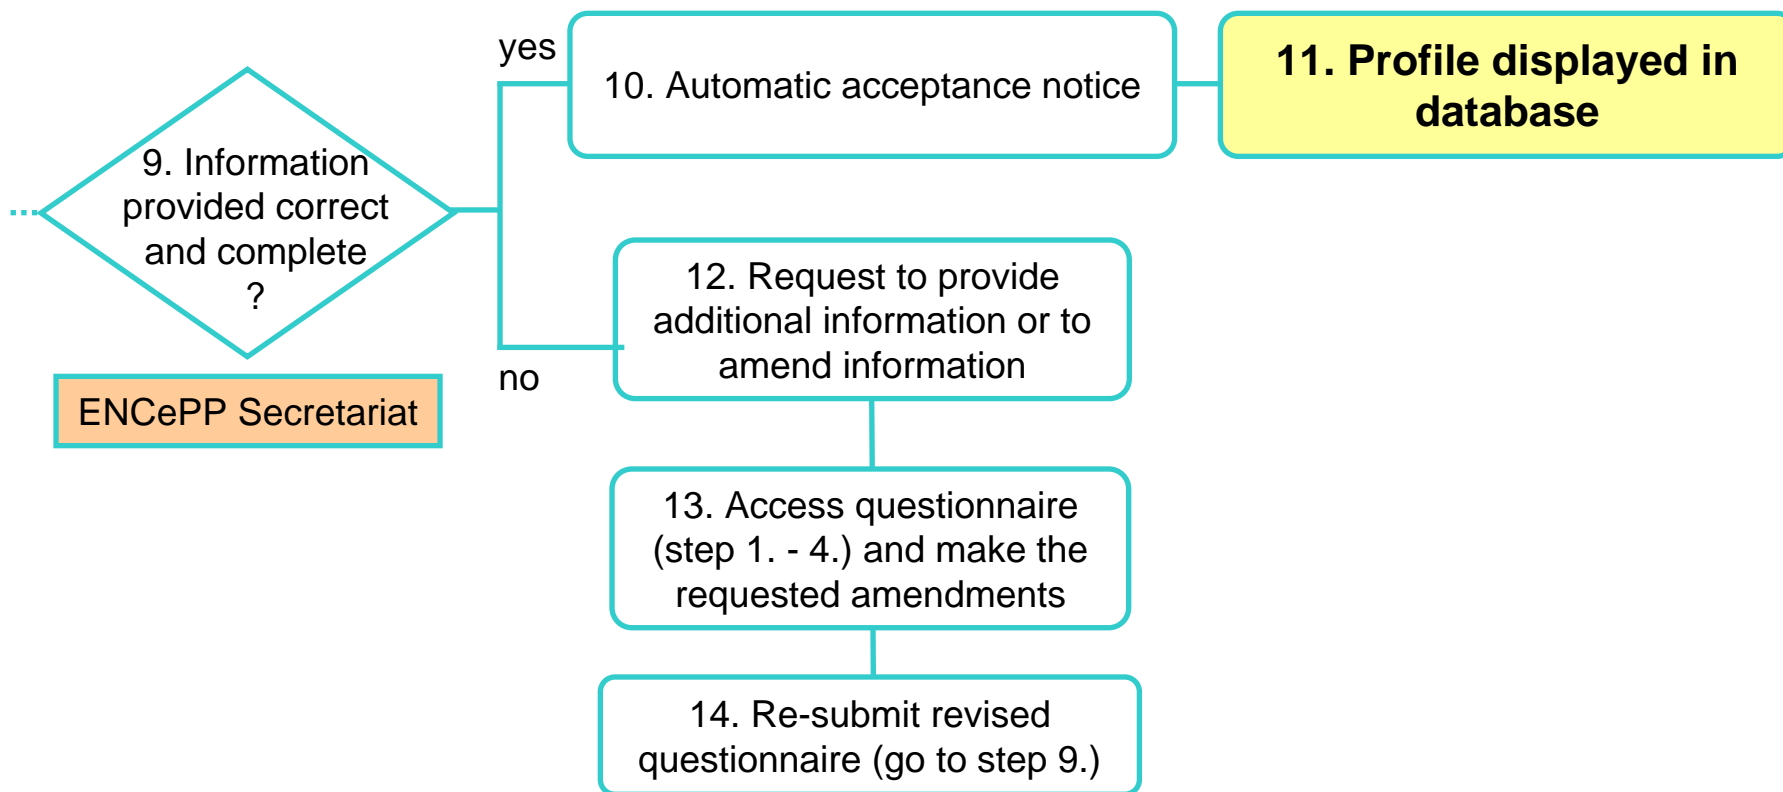

How to register

Database of research centres

Pilot

Internal UAT completed in December 2009

Short pilot phase: 11 – 17 December

Objectives:

- **test the data entry and submission tool:** access the 'Join ENCePP' portal, complete & submit the online questionnaire
- **test the automated acceptance/rejection tool:** reply to a request to provide additional and/or amended information, receive acceptance note
- **get feedback** on the user-friendliness, performance, acceptability and clarity of the database and its functionalities

Version 1.0

'Special' features

- Download **.pdf version** of the questionnaire

Note: only electronic applications will be accepted !

- **'Save & exit'** your questionnaire
- **'Review'** data entries & **'edit'** if necessary
- **'Search'** database by name, country, resources and research area

Planned for Version 2.0

e-Database of data sources

Additional features

- Interlink of database of centres and database of data sources
- Extended search functions
- Downloadable profile of centre / search results
- Interactive map of Europe to access database of resources

e-Inventories**

Database of data sources

ENCePP Plenary, 11 December 2009

Jim Slattery

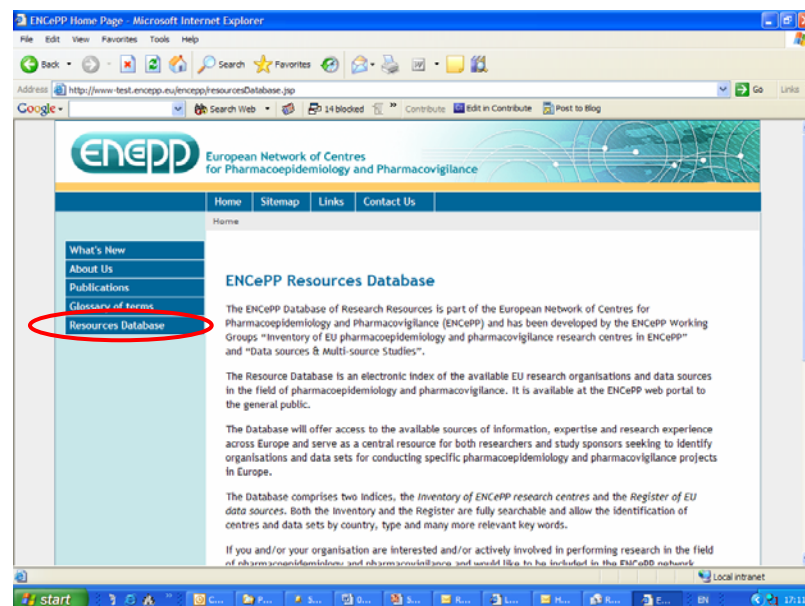

Status Update

Planned for 2nd release of resource database (Q 1 2010)

Same structure & features as Inventory of centres

Access to centres and data sources through common portal: Resource database

Link from centres database to data sources and vice versa

ENCePP e-Inventories

Registry of Pharmacoeppi & PhV studies

ENCePP Plenary, 11 December 2009

Henry Fitt

Suggested Information to be captured

1. Study Title
2. Substance/class*
3. Medical conditions to be studied*
4. Scope of study
5. Is this study a Reg requirement?
6. Main objective and outcomes
7. Centre incl Principal investigator

* if applicable)

Suggested Information to be captured

8. Synopsis of study protocol (pdf)
9. ENCePP status (is it an ENCePP study?)
10. Source of funding (see R centres' database)
11. Expected Study timelines
12. Reported results (incl link to abstract)
14. Expected timelines:
15. Full protocol (appended)
