Ref.: Request of registration in the ENCePP study register

We hereby wish to candidate our study "Long-term outcomes and adverse events of therapy with inhaled corticosteroids, long-acting beta-2-agonists and anticholinergic drugs in hospitalised patients with Chronic Obstructive Pulmonary Disease (COPD) - a cohort study based on health information systems in three Italian regions" for registration in the ENCePP study register.

According to the instructions published on the ENCePP homepage, the "Data Entry Form" was sent by email to the ENCePP Secretariat on June 18th 2010, along with the pdf files of the study protocol and its Annex.

Please find enclosed in the present letter the

- the original signed declaration,
- the checklist of the Code of Conduct and
- the checklist of methodological standards

The Steering Group is composed by Nera Agabiti, Marina Davoli, Nicola Magrini, Carlo Zocchetti and Riccardo Pistelli.

The involved researchers do not have any conflict of interest.

Hoping to receive the registration number for our study soon,

Kind regards

Marina Davoli

Director
